

## ATTO iPBridge 2700 Interoperability Matrix

|                                   |                                       | 2700C/R/D |
|-----------------------------------|---------------------------------------|-----------|
| Operating System                  | Apple Tiger OS 10.4.X                 | X         |
|                                   | Apple Panther OS 10.3.X               | X         |
|                                   | Linux: RedHat, SuSE, Fedora           | X         |
|                                   | Sun Solaris 9 & 10                    | X         |
|                                   | Windows XP, Server 2003, 2000         | X         |
| iSCSI Initiators                  | ATTO Xtend SAN MAC OS-X Initiator     | X         |
|                                   | Microsoft iSCSI Initiator             | X         |
|                                   | Native Linux iSCSI Initiator          | X         |
|                                   | Open-Source iSCSI Initiator for Linux | X         |
|                                   | SUN Solaris iSCSI Initiator           | X         |
| iSCSI HBA's                       | Adaptec 7211C                         | X         |
|                                   | Intel Pro1000 T/IP                    | X         |
|                                   | QLogic 4010                           | X         |
| Disk Storage Devices              | ATTO Diamond w/Fibre Channel option   | X         |
|                                   | JMR                                   | X         |
| Independent Software Applications | Apple Final Cut Pro                   | X         |
|                                   | CA ArcServe                           | X         |
|                                   | CommandSoft FibreJet                  | X         |
|                                   | Commvault Galaxy                      | X         |
|                                   | Sanbolic LaScala/MelioFS              | X         |
|                                   | Veritas BackupExec                    | X         |

**Disclaimer:** The ATTO Interoperability Matrix is a general guideline that is not specific to firmware, version, revision, specification level or test configuration of ATTO or third-party products. ATTO Technology tests products on an ongoing basis and new equipment is constantly being added. The Interoperability Matrix may not reflect the most current information. If a specific product is not shown, please contact ATTO Technical Services at 800-858-9598 for additional information. Inclusion of any product on this list does not guarantee compatibility. Customer-specific configurations may influence compatibility. Please check the ATTO Technology website at [www.attotech.com](http://www.attotech.com) for additional details.
